Loan Administration RFP — Example Loan Pack

Example 2 — First Ag (Livestock Financing)

Anonymised summary and deal-specific facility terms. All borrower, guarantor, offtaker, individual, property and account identifiers have been removed. Commercial mechanics are retained so respondents can model the loan. See scope note below.

Loan Summary

Overview

Facility type: A secured, revolving borrowing-base facility financing a beef cattle (livestock) trading operation — backgrounding and feedlot cattle, plus insured trade receivables. Documented under a Master Facilities Terms Agreement (MFTA).

Lender: Barrenjoey Private Capital Nominees Pty Limited as trustee for the Barrenjoey First Ag Credit Fund. An appointed Facility Manager administers the facility on the Lender’s behalf.

Purpose: Refinance of an existing livestock financier, plus funding of eligible expenses (purchase, transport, feeding, agistment and maintenance of cattle), fees and transaction costs.

Facility structure

The MFTA framework provides for four facility types (Borrowing Base, Term Loan, Repo, and Receivables Assignment). Only the Borrowing Base Facility is active in this deal; the others are marked "Not applicable".

- Facility limit: A$40,000,000 (revolving, multiple-utilisation), in AUD.
- Borrowing base = advance rate × value of eligible asset × price source, per the most recent Borrowing Base Certificate approved by the Lender.
- Backgrounding sub-limit: up to A$8,000,000 for uncontracted backgrounding / feedlot livestock, none funded beyond 60 days.
- Utilisations: minimum A$100,000 (integral multiples of A$100,000); no more than 26 utilisations outstanding at any time.

Advance rates

- Breeding livestock (cows/bulls/calves): 0%.
- Backgrounding / feedlot livestock, uncontracted: 100% (against purchase price).
- Backgrounding / feedlot livestock, contracted to an approved offtaker: 80% (against contracted net realisable value).
- Eligible insured receivable: 85% (against invoice face value).

Quantity is sourced from NLIS (National Livestock Identification System); pricing from purchase price, agent valuation or contracted value depending on asset class.

Pricing and term

- Margin: 7% p.a. over BBSY (reviewable 3 months before initial maturity). Interest accrues daily over 7-day interest periods, payable in arrears.
- Default rate: interest rate + 3% p.a.
- Establishment fee: A$400,000 (payable on signing; may be deducted from the first utilisation).
- Undrawn (commitment) fee: 40% of the Margin, charged on the unused portion of the facility limit, calculated daily and paid monthly in arrears. A ramp applies for the first 4 months (or until outstanding loans exceed A$30m): during that period the undrawn balance is calculated as if the facility limit were A$30m.

- Initial maturity: 364 days from Financial Close, with a one-off borrower extension request of up to 364 days at the Lender's discretion.
- Early repayment: generally 60 business days' notice (3 business days after initial maturity for full repayment); no early repayment fee.

Security

- First-ranking specific security agreement over the eligible commodities (livestock) and the collection account.
- First-ranking general security deed over all assets of the Borrower; subsequent-ranking general security deed over each Guarantor.
- Corporate guarantee and indemnity from each Guarantor.
- Rights of entry to each approved location (owned and third-party feedlot / agistment properties).
- Livestock security supported by NLIS tagging; trade credit insurance underpins offtake and receivables.

Key structural features

- Approved locations: a portfolio of owned and third-party feedlot / agistment properties (identities, addresses and PIC codes redacted).
- Approved offtakers: major meat processors, contracted under the Borrower's trade credit insurance policy (names redacted).
- Monitoring: Borrowing Base Certificate reporting; Facility Manager may inspect sites, take stock-on-hand reports and reconcile to inventory; periodic random sampling of receivables.
- Livestock aging covenant: eligible commodities under contract may not be funded beyond target days on feed + 30 days; uncontracted stock generally < 90 days.

Covenants and reporting

- Financial reporting: annual audited (consolidated and per entity) within 90 days; half-yearly and quarterly management accounts; compliance certificate with each annual statement.
- Permitted financial indebtedness capped at A$200,000 in aggregate (ordinary course, arm's length) unless approved.
- Permitted security limited to existing security in favour of a major bank and an agricultural services provider (names redacted).
- Trade credit threshold A$1,000,000; significant disposal threshold 20%; insurance maintenance undertaking; customary negative covenants under the General Terms.

Barrenjoey's role in the transaction

The Barrenjoey First Ag Credit Fund (with Barrenjoey Private Capital Nominees Pty Limited as trustee) is the Lender / financier of record. An appointed Facility Manager administers the facility on the Lender's behalf: approving Borrowing Base Certificates, processing utilisations, running site inspections and stock reconciliations, monitoring the livestock aging covenant, and applying the advance-rate / borrowing-base calculations.

For loan administration purposes: the administrator would service a revolving borrowing-base facility with daily interest accrual over weekly interest periods, borrowing-base recalculation against NLIS livestock data and insured receivables, sub-limit and utilisation-count tracking, an undrawn fee with a ramp mechanic, collateral / location monitoring, and the establishment fee. This is materially more dynamic than a term facility and is the key capability being tested.

Other important points

- Refinances an existing livestock financier (name redacted).
- Original financial statements: unaudited consolidated FY24 and FY25, plus management accounts to Feb 2026.
- Governing law: an Australian State/Territory (redacted; it was named in the original).

- The full executed MFTA runs to ~115 pages; the ~90 pages of General Terms are standard legal boilerplate and are not reproduced in this pack (see scope note).

Commercial Terms — Borrowing Base Facility

Term Loan, Repo and Receivables Assignment Facilities are marked "Not applicable" in this deal.

Facility description	Borrowing Base Facility — multiple-utilisation (revolving) facility, provided by the Lender to the Borrower.
Commencement	Financial Close.
Purpose	The Borrower shall apply amounts borrowed towards: • Refinancing existing drawings / debt owed to an existing livestock financier [name redacted], as approved by the Lender. • Funding Eligible Expenses. • Payment of Fees and other transaction costs and expenses. • Any other item approved by the Lender at its sole discretion.
Facility Limit	A$40,000,000, as reduced by reductions, permanent prepayments and repayments.
Currency	A$.
Backgrounding sub-limit	Up to A$8,000,000 may be used to purchase uncontracted backgrounding and feedlot livestock. No commodity funded under this sub-limit for more than 60 days. Drawings reduce availability under the Facility Limit.
Availability period	From Commencement to the earlier of 30 days before the Maturity Date and the Termination Date.
Facility limit reductions	Partial reductions minimum A$1,000,000 and integral multiples of A$1,000,000; notice irrevocable.
Utilisation restrictions	Minimum A$100,000 and integral multiples of A$100,000 (or, if less, the Available Facility). No more than 26 Utilisations outstanding at any time.
Early repayment	• 60 Business Days' prior notice to repay all or part of the Loans (or shorter if the Lender agrees). • Only 3 Business Days' notice where repayment is (i) after the Initial Maturity Date and (ii) in respect of all (not part) of the Loans. • Early repayment before the Termination Date must be a minimum of A$1,000,000; amounts repaid are not available for redrawing.

Voluntary cancellation	60 Business Days' notice (3 Business Days after the Initial Maturity Date for full cancellation). Undrawn fee continues to accrue on the cancelled portion during the cancellation period.
Early repayment fee	Not applicable.
Initial Maturity Date	364 days from Financial Close.
Maturity Date	The Initial Maturity Date, or the Extended Maturity Date if an extension is agreed (Item 44).
Margin	7% per annum. Reviewable 3 Months before the Initial Maturity Date.
Interest rate	Margin + BBSY.
Interest period	7 days (interest accruing daily), or as otherwise agreed.
Default rate	Interest rate + 3% per annum.
Interest payment	Calculated daily; payable in arrears on the last day of each Interest Period and on the Termination Date.
Fees	• Establishment Fee: A$400,000 — on the date of the Agreement (may be deducted from the first Utilisation at the Facility Manager's election). • Due Diligence Fee / Minimum Interest Fee: not applicable. • Undrawn Fee: 40% of the Margin — calculated daily, payable monthly in arrears on the undrawn balance. For the first 4 months (or until outstanding Loans exceed A$30,000,000), the undrawn balance is calculated as if the Facility Limit were A$30,000,000.
